

How to start your PCI Demo

Step 1

Customer Device: This is the device used to call the demo number.

Agent Device: This is the device used to answer the call from the demo number.

Visit Atmoso's website and fill out the below credentials for your free PCI demo at atmoso.com/mydemo.

- First & Last name
- Email Address
- Company Name
- Contact Name
- Forwarding Number*

*If not entered, the contact number will be used as the forwarding number.

After submission, you will be redirected to the demo portal and allocated a unique demo number; this will also have been sent to the email you provided for future use.

Step 2

Call the demo number from step 1 using the **Customer Device**. Answer the call on the **Agent Device** (forwarding number or contact number if left blank).

Enter the **4 digit code** from the demo portal into the **Agent Device** & complete the customer details within the form as seen below.

Access the portal at any time by referring back to the unique link in your demo confirmation email.

Step 3

Using the **Customer Device** enter the details on the USB card followed by the #.

Step 4

Enter and verify the amount at the bottom and click next.

Step 5

A new window will appear saying payment has been processed.

For an example of a declined payment, use the below details:

Card Number: 4000 1200 0000 1154 Code: 101 Expiry: 01/29
